

Twinbrook Farm
Worthington, Massachusetts
P. O. Ringville

Nov 16. 22

My dear Clarke: I have yours
of Nov 14. Thanks. That is
good news about the
Moulton Park memorial.
What we want to celebrate
here is not merely, or so much
the man - who has done
other big work elsewhere,
but the invention born
at M. P. and the place
itself now only a memory
and tradition. I hope it
goes through.

As to the editorial.
Thanks. Yes! it is a hummer,
in a very fine way.

As to the Edison
medal. I will adopt your
suggestion after conferring
with Dr. Adams, to whom I
have already voiced
my feeling and yours
as that of the industry
as we know it.

When do I see your
"piece"? I have just read
E.W. Haunover's brilliant
little monograph on Edison's
Etheric Force. I went over a
lot of that material when
writing my "Life" of T.A.E.

 J. Van Alstyne

P.S. By the way, where is Central
Bridge, N.Y. G. Westinghouse was born
there. Is it not near Schenectady?
